**Chris Carpentier**

## **IEL INSTITUTE LEVEL III SPIRIT RELEASE CERTIFICATION WORKSHOP**

This one-day event will look at the subject of spirit attachments, with a focus on the spirit release method. The subject of spirit attachments has a rich history that helps one understand the present day applications and has been heavily studied by experts since the mid-1800's. However, fear around the subject has led to misinformed beliefs related to demonic possession.

In truth, a spirit release can be a very loving process that can benefit those on both sides of the veil, leading to one of the highest levels of service imaginable. Teachings from Dr. William Baldwin combined with personal case studies, will give you an understanding of this phenomenon that affects a large percentage of the population.

This workshop is not recommended for those under the age of 18, and is intended for anyone with a focus on self-healing, becoming a healer, a medical intuitive, energy practitioner, modern shaman, or anyone with an established practice that wants to add this healing modality. In this class, you will learn:

- The history of spirit release
- About Earthbound Spirits
- How to determine if an Earthbound spirit is present
- How a soul becomes lost or stuck in the lower astral
- The meaning of a soul contract
- Group attachments
- Symptoms associated with this type of energetic interference
- A step-by-step process for facilitating a spirit release
- The process of functional integration that follows a release
- Protection and energy clearing

**Taking IEL Levels I and II  
are not required to  
participate in this  
workshop.**

Note: Beyond the workshop, there will be 2 internship sessions with focus on spirit release that are required to complete the certification. You can choose not to participate with the internship portion of the process and still attend the workshop to deepen your spiritual understanding.
