

October 8th, 2022 10 am - 5:30 pm

The Energy Practitioner Certification Workshop

Facilitated by: Chris Carpentier, Master Energy Healer

This workshop is designed for those who desire to start an energy healing practice and for those who are already working in fields such as massage therapy, Reiki, acupuncture, and holistic healing and wish to enhance their knowledge and skills. There will be focus on how to assess the energy centers or chakras and explore the seven subtle bodies that create the aura, or electromagnetic field. This will be an interactive experience with teaching, learning, and sharing aspects of new and creative ways to perform an energy healing session, while maintaining a positive, secure and soothing environment for the practitioner and the clients.

You will learn how to intuit, assess, and identify imbalances of the chakras and auric fields. We will also take a deeper look at energy assessment and functional integration of energy, intended for those who want to take their skills to the next level. Each person will conduct or participate in an energy healing session.

In this class you will learn:

- Conducting an energy balancing session step-by-step healing process.
- How to clear a space and maintain a stable healing environment for yourself and clients
- How to do a complete energy assessment
- The multidimensional bodies and how to assess imbalances
- The aura and how to attune your vision to the vibrational fields
- How to use a pendulum

Come join others who are in the spiritual arts and learn from a Master Energy Healer!

Note: Beyond the workshop, there will be 3 internship energy healing sessions are required to complete the certification. You can choose not to participate in the internship part of the process if you do not wish to receive the certification. This is highly recommended if you are a practitioner.
