

# *Past Lives Workshop*

*Saturday, April 8, 2023*

*10:00 am – 5:30 pm*

*Facilitated by: Chris Carpentier, Shaman and Master Energy Healer*

Thousands of people have found that past-life therapy has proven to be one of the most powerful and effective techniques for removing blockages in relationships, careers, family, health, prosperity, and overall wellness. Past-life therapy can be a gateway to positive change. The beneficial aspects of working with past-life energy are not dependent on an individual's belief in other lifetimes, as the results speak for themselves.

Balancing past-life energy is particularly effective and beneficial in healing unexplained aches, chronic pains, fears, behavioral patterns, karmic energy, and trauma. It can also reveal, or reawaken, hidden spiritual gifts of knowledge, insights, and wisdom.

Past-life energies are just that, energies. With past-life energy, there is a thread that connects the eternal energy of the soul to individual emotions, patterns, personalities, behaviors, and beliefs formed in this lifetime. The angelic realm refers to past life energy as a partial system, one aspect of the entire energy body. By determining the possible energetic effects of a past-life experience, whether considered traumatic or not, the balancing of the energy can have a positive long-lasting benefit.

In this class you will learn about:

- Past lives from an energetic perspective
- Meditations and methods used to balance past life energy.
- Triggers that awaken the past-life energy
- How to assess and identify past-life energy
- The subtle nuances of a past life
- The proof that comes from results or matching historical context
- Functional integration
- Past-life fragmentation
